

Addendum No. 1

Supply of Card Lock and Bulk Fuel Request for Quotations (RFQ) No. Q210928PW

Respondent Questions and Answers

1. Does Parkland County have a fuel management system (cardlock) already in place?

Yes, we have an internal system for our County owned yard fuel tanks and we currently have a cardlock arrangement in place with an off-site, external vendor.

2. Where are the locations that the bulk fuel deliveries need to go? Are they all accessible by road?

Bulk fuel delivery locations are listed in Section 4.2.1 Location of Work on page 11 of the RFQ document. The locations are all accessible by road.

3. What are the size of the tanks at each location?

- County Services Building 1 tank 15,000 litres of colored diesel.
- Tomahawk 1 tank 10,000 litres gasoline, 1 tank 18,000 litres colored diesel, 1 tank 8,000 litres diesel.
- Near Beach Corner, Private Property and Millbank are all 2,000 litre colored diesel tanks.

4. Are there any delivery restrictions (i.e. time of day, locked gates, etc.)?

Delivery restrictions are between 8:30 am and 3:30 pm unless alternate arrangements are made for a specific situation. County Services Building and Tomahawk are within a locked gate. Remaining remote tanks may or may not be within a locked gate. Access will be granted to the successful Respondent(s).
