

Addendum No. 1

Mixing of Asphalt Stabilized Base Course (ASBC) Bamber Pit (SE 17-53-4 W5M) Request for Quotations (RFQ) No. Q210916RMD

Respondent Questions and Answers

1. Will the County allow night mixing of the cold mix and will work be allowed on Sundays?

Night mixing of the cold mix will not be allowed, Night-time is defined under the Community Standards Bylaw section 8, item "I". Work on Sundays will be permitted granted the Contractor abides by the rules as set out in Parkland County's Community Standards Bylaw.

The Community Standards Bylaw can be found under:

<https://www.parklandcounty.com/en/county-office/resources/Documents/Community-Standards-Bylaw-No.-03-2012.pdf>

2. Please provide more details on the Prime Contractor Certification referenced in section 3.6 of Appendix C, and section 4.2.8 of Part 4 – RFQ Particulars.

The Prime Contractor certification can be obtained through taking the relevant course from The Alberta Construction Safety Association.

3. In Appendix F, SP 1.6.4 Quality Control it states the contractor shall use a professional engineering service with a qualified laboratory licensed to practice in Alberta. We have our own in-house Quality Control department performing all our testing required for contracts with Alberta Transportation and most other municipalities. Would we be allowed to use our own Quality Control department to perform the required testing of this contract?

Quality Control can be completed in-house provided it is performed in a qualified laboratory by a professional licensed to practice in Alberta.
