

Key Themes We Heard

Township Road 524 Functional Planning Study Range Road 12 to Highway 770

A functional planning study for Township Road 524 between Range Road 12 (Town of Stony Plain boundary) and Highway 770 is underway. We appreciate the feedback that was received on the draft functional plans have been developed for the intermediate term (15 to 20 year) and long term (50 – 75 year) horizons.

Themes

Key themes received through the feedback included:

- Upgrades needed to Highway 628 west of Stony Plain should be higher priority. (Note that Parkland County does not have jurisdiction over Highway 628 / Township Road 524 east of Range Road 12.)
- Road is bad and has poor maintenance / condition.
- Need for bypass and unnecessary removal of farmland.
- Speed limits are low / opposition to lowering speed limits.
- Narrow roadway / shoulders and support for shoulder widening.
- General preference for T-intersections over roundabouts.

How Input Will Be Used

Local knowledge and input from residents and the public will be used to identify additional constraints and considerations that may be used to refine the draft functional plans.

Updated draft plans will be presented to Parkland County Council in early 2023.
